Representation of Mr. P.V. Krishnaswami for promotion to the grade of Dy. ~~Supdt.~~ Director of Land Records.

File No. · of 193 . | General and Revenue Secretariat

Mr. P.V. Krishnaswami has reached the maximum in grade 250-450 & been drawing Rs 450 from 22-9-32. In April last, the Director recommended that the name of this officer (as well as the other N.C.S. officers working as Assistant Supdts in the Dept.) be included in the Civil Service cadre so as to afford chances of further promotion. This request was declined by Govt. In the discussions at the time, it was however felt that some improvement in future prospects for these officers may have to be provided for and the Chief Secy. suggested in August 1934 that the question of creating a post, corresponding to a Senior Asst. Commr's grade, might be considered a year or two later.

The Director now recommends that in view of the growth of work in the Dept, an officer of the rank of Dy. Director is necessary and that Mr. P.V. Krishnaswami may be appointed Dy Director on a pay of Rs 600-40-800. As regards the pay of the post, it is submitted that though the pay of the old post of Dy Supdt. had been fixed at 600-40-800 (when Mr D. Srinivasa Rao held it), when it was revived in 1932 on the amalgamation of the Survey with Revenue Dept - an officer of the grade of Senior Asst Comr. was ~~newly~~ posted

Messrs P. N. Krishnaswami & B. Venkataswamaiya reached the maximum of their grade on 22-9-32. It is just two years that they are in that grade. It was decided (Hon'ble P.) that the system of giving a higher grade to them by creating a post corresponding to an Asst. Commissioner by converting an Asst. Supdt.'s place into a Dy. Supdt. may

be taken up one or two years' arrears. The subject may lie over for the present I think.

The Director says that the post of the Dy. Director has to be revived as work has enormously increased since its abolition owing to the introduction of the Board of Rajas and the necessity to check the Technical work of the Dist. Survey Offices by an experienced Technical Officer of a sufficiently high status has become insistent as he alone cannot supervise such a large establishment without such an intermediate officer. If the Director wishes that the Dy. Director should do this work of checking he may require another Head Quarter Officer. I doubt if that is possible. I doubt also the necessity of this help to the Director in checking the tests & results of the Dist. Survey Officers.

Secretary to the Government of
His Highness the Maharaja of Mysore,
General Department, Bangalore

SIR,

I have the honor to enclose herewith an application from Mr.P.N.Krishnaswami, M.A., LL.B., Assistant Superintendent and Head Quarter Officer for promotion to the grade of Deputy Director.

2. The volume of work in the Department has grown considerably as a result of the introduction of Record of Rights Scheme into the State. Even during the maintenance stage of the Record of Rights Scheme the work is bound to be much heavier than when the Deputy Superintendent's post was in existence. The Deputy Superintendent's post was abolished in 1926 when Mr.D.Srinivas Rao was promoted as Survey Superintendent. He was then given only 4 officers for the eight Districts in the State and one Office Assistant to manage the normal work of the Department. But, since 1928 things have changed. While in 1926 there were only 134 measurers (Surveyors) and nine Supervisors (then called District Surveyors), at present in addition to the above staff the sanctioned strength of the Record of Rights establishment is 296 Surveyors and 24 Supervisors and 3 Additional Officers. The supervision of such a large number of men and establishment cannot well be attended to by me alone without an intermediate experienced technical Officer of a sufficiently high status to check the technical work and tests of the District Survey Officers. In their recent order reviewing the work of the Land Record Department

the Government have laid stress on the necessity of such a check over the tests and retests taken by the District Survey Officers and their Supervisors. I am of opinion that not only in the interests of the Department are such checks necessary but also the revival of the post of Deputy Director on the old grade of pay of 600-40-800 (as was being paid to Mr.D.Srinivasa Rao when he was Deputy Superintendent in the Department) is urgently called for.

3. Mr.P.N.Krishnaswami has put in a service of 17 years and 9 months and worked in all the branches of the Department to the entire satisfaction of my predecessors and of myself. As he is the seniormost officer in the Department I recommend that he may be promoted to the higher post which may be revived immediately. I may be permitted to add that there are appointments on intermediate grades between the Heads of the Departments and their Assistants in all the Departments such as, Accounts, Forest, Revenue, Education etc., which are given to the Assistants in the order of seniority. Unless the old post in the Department of a Deputy is revived there will be no scope for the Assistants to get any preferment in the Department itself particularly as this has been treated as a technical Department and its officers informed that they cannot expect any change to or promotion in other Departments.

4. In these circumstances I recommend that Mr.P.N.Krishnaswami who happens to be the seniormost of the officers and is in every way deserving may be appointed as Deputy Director on a salary of Rs.600-40-800.

I have the honor to be,

Sir,

Sir,

I beg to approach you with a prayer for promotion to the post of Deputy Superintendent in the Department for the following reasons.

As I got a high rank outside the first three places in the Civil Service Examination of 1915, and in consideration of my qualifications I was asked to interview the Second Member of Council in his official memorandum dated 25th November 1916 which held out a promise that the probationers in the Survey Department would be eventually confirmed in the Assistant Commissioner's grade. After the interview on the 29th of November 1916 I was appointed a probationer in Government Order No.R.6643-4/L.S.42-14-3 dated 26th December 1916. The Government Order stated that the question of my permanent pay and prospects would be settled after the period of probation of one year. In view of the assurance held forth I did not appear for the Civil Service Examination of 1917 when the first six persons were entertained as Probationary Assistant Commissioners. If I had appeared for that examination I might have had a chance of securing one of the places.

But at the time of confirmation I was given a lower pay and it took me a number of years to get promoted to the grade of 250-25-450. I reached the maximum of Rs.450/- over two years ag

I am now in the non-civil service cadre, and the Chief Secretary in his letter No.379/C.B.42-34 -3 dated 22nd August 1934 has stated that I cannot be included in the general cadre of Assistant Commissioners as I have been all along in the Survey Department and have had no experience of the work of the other Departments. Thus all chances of promotion are limited to the Department in which I am placed.

Till 1933 there was a post of Deputy Superintendent in the Department as an intermediate place between the Head of the Department and the Assistants working under. In the Revenue, Forest, Accounts, Judicial, Police, Education, Health, Agriculture and several other Departments there are such intermediate places on a higher grade and assistants are getting promotions to such places in the normal course of vacancies occuring. In the Survey Department also formerly assistants were getting promotion to the post of Deputy Superintendent (600-40-800) and some assistants eventually rose to be Superintendents. I might have got the Deputy Superintendent's place in 1932 itself if Mr.S.N.Appanna Iyengar an Officer from the general line had not been posted consequent on Mr.T.Hanumantha Rao's transfer from the Department. The number of subordinates has increased in the Land Record Department by 200 per-cent and the number of assistants stands at eight without any intermediate higher place.

During my long service of 17 years and 9 months in the Department, I have worked very hard and I think that all the officers under whom I have worked have spoken about my zeal, industry, devotion to duty, and capacity. I am also the senior most of the officers in the Department, and the work that is being done by me under your kind control is not unknown to you.

I pray that you may be kindly pleased to recommend my case strongly to Government for promotion to the place of Deputy Director (Deputy Superintendent) in the old scale of 600-40-800 as the need

for revising such a post in the interests of work in the Department is present, and in view of my long service and seniority.

I have the honor to be,

Sir,

Your most obedient servant,

Assistant Superintendent,
